

Information Security Policy

Basic Philosophy

We, MAEDA SEISAKUSHO Co., Ltd., will ensure that information related to our business activities and those information assets will not be leaked in any way during the process of collection, use, storage, and disposal. We ensure that the information will be kept confidential, free from errors and tampering, correctly processed, and available when needed. We will achieve this by implementing appropriate information security management and timely and appropriate information disclosure. We will work to gain the satisfaction and trust of our customers and stakeholders, as well as of our management policies and plans by implementing the following measures.

Basic Policy

1. Maintaining an internal system

We will maintain and continuously improve information security by establishing an internal system and implementing the items stipulated in this policy.

2. Safe management of information assets

We will implement necessary safety management measures to ensure that the confidentiality, integrity and availability of the information assets handled by our company are not compromised.

3. Compliance with laws and regulations

We will comply with laws and regulations regarding the handling of information assets.
We will also establish and revise internal regulations that conform to these laws and regulations and ensure information security.

4. Education and training

We will provide training to our officers and employees to promote the appropriate use of information systems while improving awareness of information protection and ensuring compliance.

5. Failure prevention, quick response, and prevention of recurrence

We will continuously monitor for new risks and changes in the information security environment and strive to prevent information security incidents. In the event of an incident, we will work to resolve it as quickly as possible and take appropriate measures to prevent recurrence.
